Dear parents,
In 2017 the in-class instrument program run by PMI will no longer be running. Learning an instrument is an important skill that helps students development. Therefore, I’m excited to announce that we will be offering lessons after school hours. We are currently accepting enrolments for guitar and piano students on Monday afternoons. We can also collect students from after school care if required (by arrangement). We have a range of other instruments and vocal lessons also available. To find out more, just go to ulearn.com.au and look at the current vacancies for the Rangebank Campus. You can also enrol directly from the ‘enrol’ page with no cost or obligation. We will be in contact with you to discuss the options.
Yours sincerely
Steve Roberts

Parents Advice

Your kids will appreciate the right focus at report time

Could try harder... always does her best... lacks concentration...easily distracted...a pleasure to teach...

School reports can mean anxious times for children too.
‘Will my parents be disappointed or proud?’ is the main concern of most children. Kids of all ages take their cues from their parents, so your reaction to their school report can affect the way they see themselves as learners and as people.

Focus your attention on these aspects to make sense of children’s reports:

Expectations

Expectations are tricky. If they are too high, then kids can be turned off learning. Too low and there is nothing to strive for. Pitch your expectations in line with a child’s abilities. A quick check of your child’s last report cards may give you a good yardstick.

Different rates of learning

Remember there are slow bloomers, late developers and steady-as-you-go kids in every classroom, so avoid comparing your child to siblings, your friends’ children and even yourself when you were young. Instead, look for individual progress.

Safeguard confidence

Self-confidence is a pre-requisite for learning, so be prepared to be as positive and encouraging as possible.
