

Thank you for your interest in Rangebank Primary School and enrolling your child for Foundation 2021.

We would normally have a number of sessions at school with our future Foundation students. With current restrictions this is not possible, so we plan to connect with you and your child remotely.

The Foundation team (Mrs Rolfe, Mrs Magri and Mrs Greig) and other members of the school community will be recording videos over the next few weeks. These videos will be posted on our website under the Transitions tab, and we will email you when new videos are posted.

We would also like all families to download and set up a Class Dojo account in readiness for 2021. Class Dojo is a terrific app that allows you to easily engage with the school and the student's learning on multiple devices including iPhone, Android, iPad and desktop computers. During remote learning, Class Dojo has become one of our main forms of communication and allows us to celebrate the learning of students while increasing communication between staff and parents.

As soon as restrictions allow 2021 Foundation students on-site, we will arrange some sessions, even if it is in smaller groups than we would usually do.

Mr Ben Vevers
Principal
Rangebank Primary School
